BarlowTyrie

Est 1920

Founded in 1920, Barlow Tyrie is the world's oldest manufacturer of teak wood leisure furniture. In recent years we have added furniture in stainless steel and powder coated aluminium to our range.

We combine form and function with manufacturing experience and expertise to create pleasing designs with good ergonomic performance and so make outdoor living as stylish as it is comfortable.

An international reputation based on stylish yet practical designs, traditional craftsmanship and excellent customer service has made our brand synonymous with quality.

Quality & Excellence

Barlow Tyrie is renowned worldwide for luxury outdoor furniture that strikes the highest note in quality and style.

We use the highest grade of FLEGT-licenced teak wood and hardware made from solid brass or where strength dictates, marine grade stainless steel.

We make each of our Collections with an uncompromising pursuit of quality, whether it is the materials we use or the craftsmanship we employ - this is our ethos.

Elite Craftsmanship

Traditional values; quality, craftsmanship, service and care. Over many years we have honed our skills to create beautiful furniture, built to stand the test of time.

Our designers have combined pleasing aesthetics with ergonomic performance to create furniture that opens up your life outdoors to a world of stylish possibilities. Through our commitment to produce the finest outdoor furniture, we remain at the forefront of this rapidly changing industry and continue to demonstrate the best in British design and manufacturing expertise.

Innovative designs

Innovation and development combined with our manufacturing knowledge and experience results in products that are constructed to the highest standard.

We only use the finest materials available, which are tested and approved to the appropriate British and Industry Standards for safety and strength. Our range of furniture includes many pieces that have won international design awards and are frequently copied classics.

We have diversified in recent years to develop collections in a variety of quality materials, which we combine with both traditional and innovative construction methods.

It is reassuring to know that our designers and craftsmen are creating 'modern-classics' with the quality, style and comfort that has become the hallmark of our ethos.

Customer Service and Care

Our exceptional customer service offers after-sales support and encourages an ongoing relationship with our customers. Throughout the life of our products, you can be confident that our customer service will respond to any query you might have.

A century of excellence

Since starting from humble beginnings as a specialist manufacturer of teakwood outdoor furniture in East London over 100 years ago, we have progressed and are now known and respected worldwide as producing luxury outdoor furniture that strikes the highest note in quality and style. This is our story...

1920

Victor Tyrie and Frederick Barlow, together with a few others, started their business in London, initially in Walthamstow but then moving to a stable that was no longer in use behind a terrace of Victorian houses in nearby Leytonstone.

1949

After WWII we resumed production, initially using home-grown timber to produce rustic outdoor furniture but later reverting to our traditional use of premium teak, supplying the fashionable and exclusive London stores of the time, including Harrods, Maples, and Heals.

1970

After nearly 50 years, we moved from Leytonstone to the old market town of Braintree in Essex. This move benefited from a scheme run by The Greater London Council in several designated expanding towns. The scheme provided housing for residents of London that were prepared to move away from areas being redeveloped and included some of our employees.

1986

We opened an office and warehouse in the USA to serve our increasingly important market in North America.

1992

In response to a policy of the Indonesian government to stop the export of teak that we had sourced there since the early 1980s; we acquired a factory on the island of Java, which we expanded to approximately 300,000 sq.ft. and today employ around 300 local people.

2020

Victor Tyrie's son, Peter and grandsons, Mark and James manage the company, making Barlow Tyrie a truly family business with a continuing legacy of designing and manufacturing some of the highest quality outdoor furniture money can buy.

Secret Bay, Caribbean

Inspiration

Background: Award-winning Secret Bay is a six-star, rain forest resort experience, featuring secluded cliff-top residential style villas, private plunge pools, dedicated attendants, personal chefs, and secret beaches.

Secret Bay came to us with a need for premium quality, durable furniture for use inside and outside each of their outstanding villas.

Solution: We recommended Horizon and Haven loungers, Titan dining tables and chairs, Monaco dining chairs and Linear tables.

Montalto Estate, Ballynahinch, UK

Inspiration

Background: Montalto Estate, nestled in the heart of the picturesque County Down countryside, is a privately-owned demesne which dates back to the early 1600s and receives over 100,000 visitors per year. Its stunning gardens, which allow visitors to ‘reconnect with nature’ have been shortlisted for UK Historic House Garden of the Year, and hold a 5-star rating from Tourism Northern Ireland. The Café at Montalto, which opened in September 2018, is a stylish eatery which specialises in exquisite seasonal menus and obtains many of its herbs and vegetables from the estate grounds.

Solution: The Montalto Estate was inspired by RHS Wisley’s use of Barlow Tyrie’s Titan collection in its 2018 café launch. Montalto needed seating that reflected the rustic charms of this Northern Irish country estate and its elegant gardens. Sets of Titan tables, benches, and seats were delivered to the outdoor space allowing seating for up to 56 patrons at any one time. Montalto staff can easily and simply buff the wood back to its original finish should it get stained by beverages in such a high footfall area. This function, coupled with the highest quality, was critical to the estate, so much so that ‘The Shop at Montalto’ also offered a small selection from the Titan collection for retail sale. “We don’t see ourselves as your standard tourist attraction,” says Marketing Manager Tracy O’Toole. “Our shop’s focus is on premium products that are in keeping with the Montalto brand that we know our customers will love.”

Montalto Estate

Private Residence, Suffolk Cottage Garden, UK

Inspiration

Background: Overlooking a paddock under big East Anglian skies, the garden of a late 18th-century mill barn conversion in a small rural village has been cleverly designed to blend contemporary and traditional seamlessly.

Understanding how our environment influences our well-being, the owners wanted to spend more time eating and relaxing in their outdoor space, having lived and worked in Australia some years ago. Collaborating with garden designer Chris Deakin, the owners wanted separate yet flowing zones for their garden. This has been achieved, retaining aspects of an English cottage garden through layout and planting, combining a modern feel to the cooking and dining area.

Solution: The dining area has a weather-controlled roof and sides, which can be enclosed with a screen and gliding glass doors. The owners can pick their produce just before cooking from the adjacent cube-shaped box hedge framed fruit and vegetable planting area.

To ensure all diners feel equally comfortable, they are seated on Equinox carver chairs with 316 marine grade stainless steel frames, Graphite arms and Platinum Textilene® slings. The Equinox 3m dining table with Ash Ceramic top seats eight generously.

The 316 marine grade stainless steel frames selected on the Equinox Dining furniture subtly link to the kitchen area when this side is open.

Talbooth Hotel & Spa, UK

Inspiration

Background: With 70 years of history, the family-owned and run Milsom Hotel & Restaurant group aims to be the first choice for eating, drinking and staying in the Essex and Suffolk area. To ensure an optimum experience for its customers, its ethos is to ensure consistent quality and to keep looking forward. Talbooth House & Spa has recently been rebranded and developed to be a spa-led facility, aiming to be the ‘number one place to step back, relax and indulge in Constable Country’. The main hotel building dates from the mid-nineteenth century and is a classic Victorian design, with each bedroom named after an English poet. The modern spa and pool area present an oasis of tranquillity, with treatments tailored and delivered in an extremely calm, relaxed and comfortable environment.

Solution: The decked pool area is flanked on two sides by classic teak Capri Loungers – Base, which are designed to be static. Each lounge has a full-length cushion in water-repellent Charcoal Sunbrella® fabric and each pair of loungers share a Colchester Low Table 54. The informal poolside dining area is furnished with Equinox Chairs and Tables 100, made using 316 marine-grade stainless steel. The tables have teak tops, and the chairs have shaped backs and seats in teak. The teak brings warmth and softness to the contemporary stainless steel with horizontal lines in the loungers and dining furniture that echo the horizontal styling that is evident in the decking and pool house frontage.

Tucked neatly into the pool house is a snug with a wood-burning fire and blankets. Equinox Occasional Armchairs and a Three-seater Settee with 316 marine-grade stainless steel, teak arms and Charcoal Sunbrella® cushions surround an Equinox Low Table 100, providing a modern, cosy seating area.

Private Residence, W. Sussex, UK

Inspiration

Background: Continuous views are essential to the owner, which is no surprise when one takes in the breathtaking 180-degree vista of England’s south from the garden. In addition, the client wanted to enjoy the synergy of the landscape against both the old and new parts of the house where the dining area is built.

Solution: Quite simple really - the client needed the dining table to be big! The material of the dining suite needed to be sympathetic to both the early 20th century stonework and the new glass and timber parts of the building. Barlow Tyrie’s Horizon and Apex collections met this need. The dark translucent seat sling complements the anthracite pillars of the new part of the building, while the teak table and chair frames reflect the design of the timber soffits. Join these aspects with a gently curved design and the choice was a simple one.

Private Residence, New Jersey, USA

Inspiration

Background: Creating a modern and welcoming open space for relaxing, bathing and dining during the spring and summer months is never easy. The homeowner contacted The Wickery, a USA stockist in November 2019 during the build phase of the project to help recommend outdoor furniture. The main objective? No throw cushions!

Solution: A modern look was the key objective. Aluminium frames with teak arms were recommended as a way to soften the sometimes cold and ‘industrial’ feel of all-metal frames. Barlow Tyrie’s Aura 10-seater dining set, along with four Aura high dining chairs for the bar met this need and budget. The colour of the chair sling matched the previously purchased lounge suite.

‘Having sling-backed chairs helped remove the need for fluffy, dated looking cushions,’ said The Wickery MD, Panatda. ‘The client wanted to ensure that the teak on the chairs would not crack. Barlow Tyrie’s 100-year heritage, service level and high-quality manufacturing processes helped waylay any fears and gave the client an informed and confident choice.’

Luna

Luna Lantern, only available with a Graphite frame

Stainless Steel

Luna

Luna Lantern joins geometry and out-of-the-ordinary styling using powder-coated stainless steel, teak and glass. Hold the Luna Lantern to light your way, or hang the lantern on the powder-coated stainless steel frame and enjoy the charming shadows and reflections created by the reflective centre disc. Perfect for adding atmosphere to your evening outdoor socialising.

Teak

Monterey

Our Monterey collection combines teak with the latest materials - Italian high-fired ceramic table tops and all-weather olefin cord in the award-winning Monterey seating. The all-teak seating option provides superb comfort with statement, contemporary ellipse-shaped slats and detailing, creating a stunning appearance when viewed from both front and back.

Teak

Stirling

The Stirling extending oval dining table uses traditional mortise and tenon joinery for strength and durability. The solid under-frame ensures optimum stability and legs set back from the table edge provide extra legroom to users. The table can be extended quickly and without effort by one person with a parasol remaining in situ.

Storage

Ideal for protecting cushions and other garden accessories, our large, beautifully made storage chest is weatherproof, with the top and sides caulked with Sikaflex® polyurethane marine deck sealant. The chest is ventilated and features a brass lock for security. The chest bottom prevents the ingress of insects yet is easily removed for cleaning, and the opening and closing of the chest lid is made easy with gas struts.

Woodland

The Woodland Screen with an integral lighting effect, creates greater intimacy and enclosure for your seating or lounging area. The random pattern of teak slats with soft rounded edges and stone-shaped feet are inspired by nature and create an atmosphere of natural, sheltered seclusion. Designed by award-winning international designers Andrew Jones and Nathalie de Leval. There is an optional removable curtain to complete the feeling of seclusion and act as a windbreak.

See the video

Around modular outdoor deep-seating furniture is part of the elegant Around collection, with additional dining options. Around’s refined powder-coated frames combine with gently curved teak and aluminium arms, deluxe, well-crafted cushions for the lounge furniture, and subtly profiled edges for the premium teak table tops. The modular deep seating is designed to offer numerous configurations to suit each need; it is available in single, double and triple units with the option of teak arms or aluminium with a cushion that can also form a corner when an additional unit is placed at a 90-degree angle. Cushions available in Sunbrella® Rain® (waterproof) fabric or Sunbrella® (water repellent).

Simple frames from bespoke soft aluminium shapes combine warm and luxurious materials and aesthetic details to create a beautifully coordinated collection. Designers Nathalie de Leval and Andrew Jones were inspired by spindle and steam-bent wood furniture with tactile shapes, striking silhouettes and clean details.

Parasols

1 Collection

Napoli

Napoli Parasol 2.8 with tilt action and canvas canopy

Napoli parasols provide stylish, robust and simple-to-operate shade from the sun. Our parasols are engineered to function easily - to tilt, pivot or with a telescopic mechanism that allows our larger parasols to close over a dining table. The parasol struts are made from eucalyptus with a matte urethane finish, accented with either nickel-plated, solid brass or stainless steel fittings and complete with a storage cover.

Our parasol fabric is made from Sunbrella® 100% solution-dyed, Teflon®-coated acrylic yarn that helps to disperse water.

All parasols must be used with a base for safety, even when placed through a table. Bases are available as either a standard, freestanding, floor-fixing or in-ground version, which you need to order separately.

Materials & Accessories

Cushions

We make our standard cushions from Sunbrella® fabric, a 100% solution dyed Teflon® coated acrylic fibre or you can choose to upgrade to Sunbrella® Rain® fabric at an additional cost. Sunbrella® Standard is a great choice for both indoor and outdoor use. Sunbrella® Rain® features an extra barrier which makes the fabric water repellent and the surface of the cushion quick drying. These covers are designed to provide maximum weather protection with comfort and breath-ability. Although the fabric is water repellent, zips and venting will allow ambient moisture from the atmosphere to enter the cushion.

Features

- All-weather
- Fade resistant
- Easy to clean

Ordering cushions

When ordering cushions, please suffix the fabric colour code to the cushion code. Standard colours can be seen on the fold out section at the back of this catalogue or our website. If you decide to upgrade to the water repellent Sunbrella® Rain® option then please add a ‘V’ to the fabric code, e.g., Natural = 5405V. If you are unsure which option best suits your needs then please talk to your retailer prior to purchase.

USA

Standard stock colours may not apply to our USA stockists. Due to the vast choice available from Sunbrella® fabrics, we offer a bespoke service with all cushions and pillows made to order. Sunbrella® Rain® is available as an upgrade. The

fabric name, colour and code used are sometimes different to the rest of the world. For example, Taupe has two different codes, in the European Collection it is SJA-3729 which is fire retardant and in the USA Collection it is 5461. Contact your retailer if you need help.

Care and maintenance

Cushions should not be left out in heavy rain for prolonged periods. If cushions do become saturated, place them on edge with the flap down until dry. One of the best ways to keep your cushions looking good and to minimise the need for deep or vigorous cleaning is to properly maintain the fabric. You can do this by brushing off dirt before it becomes embedded in the fabric and wiping or spot cleaning spills as soon as they occur.

For added protection we recommend the use of Barlow Tyrie Fabric Weather Guard (4FWG), which also acts as a stain repellent and to remain effective should be applied annually. It is easier to leave the cushion covers on during the cleaning process. We suggest cleaning cushions before placing into storage over the winter months, they will then be ready and waiting for the sun to shine. Do not store cushions until fully dry. A comprehensive guide to cleaning various spills is available on the Sunbrella® website.

For cushion colours please check the fold out swatch on the inside back cover

Fabric & Cord

Sling and Curtain

Sling is the fabric seat and back on our seats and loungers, for which we use the following three materials. We can supply replacement slings for current and some discontinued products. Contact our customer service department with the model of your furniture to enquire. An optional curtain is available for use with our Woodland Screen to provide extra seclusion and protection from the elements.

Textilene®: colours available are Charcoal .500, Titanium .502, Platinum .504, Pearl .505, Martinique .509 (Woodland Screen Curtain only).

Collections featuring these options are Aura, Cocoon, Equinox (non-powder coated), Horizon, Mercury (non-powder coated), Monterey and Woodland.

Focusing on subtle patterns that read as textures, Textilene® achieves an elevated indoor aesthetic in an outdoor setting and guarantees that our slings are strong, durable, mildew resistant, and require the minimum of maintenance. After rain, a light tap and any water simply drops off.

Sunbrella® woven fabric: colours available are Carbon .513, Seagull .512 and Oyster 515 (Around collection only).

Collections featuring these options are Around, Equinox powder coated and Mercury powder coated.

We use this fabric for extra luxury. Blending the strength of PVC with the softness of Sunbrella® acrylic yarn for added comfort.

Sunbrella® awning fabric: colours available are Forest Green .200, White Sand .201 and Pepper .204.

Safari is the only collection which features this option. This fabric is heavy duty, colour fast and weather resistant.

Jacquatex®: colour available is Ivory .601.

The Woodland Screen Curtain is the only product that features this fabric. This fabric is made from polyester yarn which is hard wearing and durable.

Canopy

Canopy is the fabric cover on our parasols. We can supply a replacement parasols for our current and some discontinued parasols. Contact our customer service with the parasol model to enquire.

Sunbrella® canopy: colour available is Canvas .302.

All our Napoli standard and cantilever parasols feature this fabric. This fabric is a durable, 100% solution-dyed acrylic. The fabric colour is locked deep inside the yarn and has excellent resistance to the fading often caused by sunlight and cleaning.

All-Weather Cord

All-weather cord is the decorative webbing we use to give an attractive and innovative finish. All-weather cord is strong, colour fast and with a soft handle. Several hundred feet of cord are used in each product.

Olefin All-Weather Cord: colours available are Brown .400 and Chalk .401.

Collections featuring these options are Cocoon (Chalk .401 only) and Monterey.

Care and maintenance of sling, canopy and cord fabrics.

All these materials are suitable for outdoor use and require minimal maintenance. To keep them in optimum condition we recommend you use Barlow Tyrie Woven & Sling Non-Foam Cleaner (4WTC).

Around & Layout

Furniture collections featuring this option - Around, Aura, Equinox, Layout, Mercury, Monterey and Titan.

Alongside our standard aluminium and stainless steel frames, we offer a powder coated frame option. This gives a stunning visual effect. We use an environmentally-friendly process to clean and etch the aluminium and stainless steel before applying a high-quality oven-fired powder coating. Refer to sample images to the left which indicate which collections are available in each colour option.

Non-furniture items featuring this option include parasol bases. All our parasol bases come powder coated as standard in Grey .03. The Napoli Cantilever Parasol Freestanding Base is powder coated (4PBFC.04) and is available only in Champagne .04

Care and maintenance

It is important that the finish is cleaned regularly using a solution of mild detergent in warm water to retain the aesthetic qualities and the expected long life. Surfaces should be cleaned using a soft cloth, sponge or a natural bristle brush, avoiding abrasive materials that may damage the finish. The frequency of cleaning depends upon the environment in which the products are placed but as a general guide an annual clean will suffice in most urban environments. In environments with high pollution, such as marine and swimming pools, cleaning should be more frequent.

Optional purchase - Frame touch-up paint

Touch-up paints are available to repair any damage that might occur during its lifetime of domestic use. Localised damage to powder coated finishes can generally be successfully repaired. The exact technique depends on the nature and extent of the damage. Powder-coat is a “dry” baked on finish, not a “wet” applied paint, therefore, our “wet” touch-up paints do not exactly match the original colour. See colour options available below. Contact your local Barlow Tyrie stockist to place an order.

- 7TUP.01 “Graphite” touch-up paint – 12ml.
- 7TUP.02 “Arctic White” touch-up paint – 12ml.
- 7TUP.04 “Champagne” touch-up paint – 12ml.
- 7TUP.08 “Black” touch-up paint – 12ml.
- 7TUP.14 “Forge Grey” touch-up paint – 12ml.

In addition to teak tops, we offer options in Ceramic and Glass. With several colour options to suit your taste.

Ceramic

Equinox, Mercury Serving Table and Monterey are made from ‘high-fired’ ceramic. Made in Italy, by Laminam, who are experts with superior surface materials. Refer to sample images to the left, which indicate the collections available in each colour option.

Mercury Serving Table

The Mercury serving table (2MEMS) comes with a ceramic top, available in Oxide .805, Frost .806 and Dusk .808. Please state your colour preference when ordering.

Features

- Scratch-proof, UV and weather-resistant (including frost and snow). Ideal for outdoor use.
- Exceptionally resistant to breakage.
- Non-porous, naturally anti-bacterial and hygienic

An innovative material

Manufactured using advanced techniques, the Laminam sheets combine a reduced thickness with a large size. All the features and chromatic properties of the sheets are unalterable and unchanged over time. Ceramic sheets have a thick single layer with a fibreglass mesh backing designed to ensure surface evenness. This ceramic is often referred to as ‘high-fired’ due to the fact it is baked/fired in an electric kiln at exceptionally high temperatures (around 1220°C / over 2000°F) to produce a porcelain product that has a high surface strength. The process used involves compacting and forming a solid mass of material by heat. These fine sheets are then cut, profiled, and polished by hand

to give a smooth soft edge. The ceramic sheets we use are very large, which makes them ideal for a large one-piece table top. In addition to being functional this ceramic has a lot of design detail. A revolutionary product, respectful of the environment: natural raw materials, sustainable technology and entirely recyclable are the basis of Laminam’s green policy.

Care and Maintenance

Ceramic tops are very low maintenance. We recommend you wipe clean using soapy water and a sponge as and when needed. No annual sealing is required.

Glass

Mercury dining tables

We make Mercury Dining Tables from acid-etched tempered glass with a matt finish.

Glass top: colours available are 604 Sea Ice, .605 Platinum and .606 Charcoal.

Features

- Minimal care and maintenance.
- Strong and highly resistant to the outdoor environment.
- Tempered glass is a type of safety glass processed by controlled thermal or chemical treatments to increase its strength compared with normal glass.

Care and Maintenance

We recommend you wipe clean using soapy water and a sponge as and when needed.

Monterey Table 100 with Oxide Ceramic top
and Monterey Teak Armchairs

Inscriptions and Plaques

We offer two options to personalise your furniture; a carved inscription or a Bronze Plaque, which are available for most of our teak armchairs, benches and seats. These inscriptions personalise a gift to a loved one or provide a special and distinctive memorial. You can visualize seats with your carved inscription or bronze plaques using Planner on our website. Go to www.teak.com/planner

For any other requirements or questions contact our customer service department.

Carved Inscription service

Add a personal message or the name of a loved one to a piece of our furniture. We normally put the inscription on the top rail of a seat or chair but we can put it on the front rail under the seat or on a table top.

Please include your carved inscription with your furniture order as we carve the inscription before we manufacture the furniture.

If you already own a piece of our furniture and would like to inscribe it then we can carve the component and have a member of our care team visit you and fit the new carved component. Our customer service department will give you a quotation for this service.

Features

- Our 3D-lettering is carved in a traditional serif typeface using a ‘V’- cut, which allows the inscription to be read easily from the side as well as from immediately in front, which is an advantage over normal machine cut letters.
- Our standard font is Times New Roman, 2.5cm (1”) in height. We can supply inscriptions in other fonts.
- We can supply an inscription in any language, including Chinese and Arabic.
- We can supply a seat with a teak panel in the back, on which we can carve a

logo, a club crest or a longer inscription or verse.

Considerations

- If more than one line of text is required, we might need to reduce the height of text depending on the model of seat.
- The maximum number of characters and length of an inscription will depend on the seat model, the seat length, the text height, whether upper or lower case and the font used.

Bronze Plaque

We can supply personalised bronze plaques to fit to any of our furniture. Plaques allow you to be creative with your choice of font or image.

We recess plaques onto new furniture to finish flush with the surface, using a hidden fixing that leaves the visible face of the plaque clear and makes its unauthorised removal difficult. We fill the letters on our bronze plaques with vitreous cream enamel that is weatherproof and makes the inscription an attractive feature and easy to read.

If you already own a piece of our furniture and would like to add a bronze plaque then we can supply one and have a member of our care team visit you and fit it. Our customer service department will give you a quotation for this service.

Features

- We supply as standard a 57mm deep (approx. 2”) bronze plaque with 6mm (0.25”) block letters (see top image above).
- Plaques can be made to any size with lettering in any font.
- The engraved lettering is filled with vitreous cream enamel that is not affected by an outdoor environment. Soft fillings, often used on plaques sited inside a building are totally unsuitable for use outdoors and should be avoided.

Glenham and Rothesay seats with inscriptions and bronze plaque

Security fastenings

We have two ways to secure your furniture, Seat Fixing Irons and Brass Security Fasteners. If you are unsure which option is best for you then please speak to your dealer.

Seat Fixing Irons

- Are made from Stainless Steel and sold in sets of two.
- Must be cast into a concrete block, which secures the seat permanently, preventing its unauthorised movement or removal.
- Are a good choice for all public places such as parks and cemeteries.
- Require no maintenance or ongoing checks.

Security Fasteners

- Are made from polished brass and sold in sets of four.
- Are designed to secure any piece of wooden furniture in place on a stone or wooden floor.
- Include tamper-proof fixings for use on a stone or wooden floor.
- Include a special screwdriver bit to secure the tamper-proof fixings.
- The item of furniture can be removed when required using the special screwdriver bit.

Care products

Teak furniture can be left out all year round. However, as part of a maintenance programme we recommend the use of teak cleaner each spring to prepare your furniture for the season.

If untreated, teak will weather to a soft silver grey patina. If you wish to slow the weathering process and retain the golden teak colour, apply Teak Colour Guard before the weathering process begins. Although stainless steel products are made to withstand the rigours of an outdoor environment, regular care and maintenance is required to preserve the fine appearance of your furniture.

We offer care products for all the furniture we supply, which are easy to

use and very effective. An annual or twice-yearly maintenance regime will be more than adequate in most instances to maintain your furniture in prime condition; however in coastal and chlorinated environments we recommend rinsing your stainless steel furniture with fresh water.

For powder coated furniture we suggest you clean and maintain your furniture with Powder Coated Stainless Steel & Aluminium Cleaner. To keep your Sunbrella® furniture fabrics and Textilene® slings in optimum condition we recommend using Woven & Sling Non-Foam Cleaner. We supply cleaning products with their own applicator pad.

Anti-Wasp Solution

4WS Quantity: 1litre
Anti-Wasp Solution is applied to outdoor furniture to deter wasps from defacing weathered wood.
Not available in the USA

See our “How to...” videos
www.teak.com/furniture/furniture-care/

London Seat 150 - weathered

Fabric Cleaner

4FC Quantity: 1litre
Removes dirt and grease, oil, pollutants and mould from Barlow Tyrie cushions. Supplied with its own special applicator pad.

Teak Cleaner

4TC Quantity: 1litre
Teak Cleaner cleans and restores discoloured, dark grey teak. Contains brightener ingredients which will restore your teak to its original colour. Supplied with its own special applicator pad.

Woven & Sling Non-Foam Cleaner

4WTC Quantity: 1litre
Woven & Sling Non-Foam Cleaner is a non-foam agent that maintains woven furniture and Textilene® slings and Sunbrella® fabrics without unsightly residue. Supplied with its own special applicator pad.

Furniture Covers and Storage Bags

We make our furniture covers and storage bags from Weather MAX-LT®, a modified polyester fabric that is the best available for outdoor applications.

Furniture covers are listed with applicable products under Additional products in this catalogue.

Properties

- Superior single layer construction
- Durable and strong
- UV-resistant with long-term colour retention
- High water repellence
- Breathable - allowing trapped moisture to disperse
- Rain and dust are prevented from penetrating
- Lightweight - easy to put on and remove
- A unique fastening ensures a secure fit

Care

The life and good looks of the cover depend a great deal on the way you care for it. Do not store the cover unless it is fully dry, using the storage pouch supplied.

Please note

- Not all covers are custom made so the fit may not be ‘made to measure’.
- Covers for standard dining groups are designed to cover the furniture with the chairs not under the table

Helpful hints

If the furniture has any sharp corners or edges, place foam rubber on the sharp edge to reduce the risk of puncture or abrasion of the cover. For table and chair combinations, placing an object, such as a beach ball, under the centre of the cover can help drain water.

Delivery times

Please allow up to 12 weeks for delivery. Contact your Barlow Tyrie stockist for information on availability.

WeatherMax® Covers & Storage Bags

Please see individual furniture products for the relevant optional WeatherMax® furniture covers.

Cushion Storage Bags

400810 Cushion Storage Bag fits 2 standard/ultra lounge cushions

400824 Cushion Storage Bag fits 4 armchair/cushions

400828 Cushion Storage Bag fits 8 armchair/cushions

Monterey Armchair (1MTA.401) and Cover (400111)

Frequently Asked Questions

Which materials does Barlow Tyrie use?

We combine the highest quality materials with superior craftsmanship and design to produce our furniture, resulting in worldwide recognition for excellence. We have combined stainless steel with Textilene® or Sunbrella® slings and premium grade teak with an all-weather cord woven from Olefin®. We powder-coat aluminium and stainless steel frames and use synthetic woven materials to produce contemporary furniture to our traditional high standard.

TEAK

What are the properties of teak?

Teak is a deciduous hardwood tree from managed plantations; it does not come from tropical rainforests. Teak has a naturally high oil content, making it stable and resistant to rotting when exposed to climatic extremes. For centuries these unique qualities have made teak the preferred choice for marine decking and construction; hence it is considered the premium timber for outdoor furniture.

Teak wood will naturally weather from golden brown to a silver-grey patina colour.

What is a FLEGT licence?

Our teak products are made of FLEGT-licensed wood from Indonesia. The legality of the wood is assured through Indonesia's national timber legality assurance system, SVLK, a mandatory legality and sustainability certification system, and the FLEGT licensing scheme. FLEGT licences show that a country manages its forests according to forest management and environment laws and labour and community welfare legislation. FLEGT licences show that logging rights have been granted according to the law and that timber is legally harvested. The licences also confirm that products

comply with legal requirements for trade and export and that required taxes and fees are paid. FLEGT licensed wood is considered to comply with the EU Timber Regulation fully. Customers who place our FLEGT-licensed timber products on the EU market do not need to undertake further due diligence.

For further information on SVLK <https://www.flegtlicence.org/svlk-indonesia-s-timber-legality-assurance-system> and FLEGT see <https://www.flegtlicence.org/flegt-licences-from-indonesia>

What is rustic teak?

The Titan range incorporates “Rustic Teak”, which is laminated and includes a beautiful wild grain pattern and will also have knots that give it a rugged farmhouse appeal. Rustic teak wood is a natural product that will react with the outdoor elements and look more rustic as the product ages. The laminated wood will start to part, and the wood will turn a lovely shade of silver. This is its natural course.

What is the teak weathering process?

Over time in an outdoor environment, untreated teak furniture exposed to the sun will turn a beautiful silver-grey colour. The length of time this takes will vary with climatic conditions. Not only is it common for a teak bench, chair, or table to last 70 years standing out in the elements, it is also common to pass down such furniture to future generations as an heirloom.

Why do occasional cracks appear on my furniture?

Teak is a natural material, and as such fine cracks in the end grain of components, e.g., legs and arms, may appear and then disappear with variations in the weather and the consequent change in the moisture content of the wood. Such fine cracks are expected, especially in heavier components, and will not affect the life or serviceability of your furniture.

Do I need to store my furniture during the winter?

No, Barlow Tyrie teak furniture can be left outdoors, uncovered, all year round. If you choose to cover your furniture outdoors during the winter, you should use a material that allows the wood to breathe. Optional furniture covers and storage bags are available.

How can teak furniture be maintained?

We recommend the following range of our Barlow Tyrie products to care for and maintain your teak furniture. For additional information on this range, please see <https://www.teak.com/care>.

Teak Cleaner (4TC) – will quickly remove accumulated dirt.

Teak Colour Guard (4TCG) – will maintain the golden-brown colour of the new teak by using UV inhibitors to prevent the natural greying process and pigment enhancers to help keep the natural colour of teak.

Teak Stain Guard (4TSG) forms an invisible layer to protect your teak from everyday stains such as butter, oil, and red wine, making cleaning accidental spills easy.

If you live in the UK and wish to maintain your furniture using our care products but do not wish to do the work yourself, we recommend you contact www.andrewbanks.co.uk, who can provide a regular or one-time service according to your needs.

Do I need to oil my teak furniture?

Treating with teak oil or other preservatives is not necessary; it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture.

STAINLESS STEEL

What are the properties of stainless steel?
We make our furniture using 316 “marine grade” stainless steel, which will best withstand the rigours of an outdoor environment. We have added selected products to our Mercury and Equinox ranges that feature an attractive powder-coat finish on the 316 stainless steel to give the ultimate protection in the harshest marine environment.

How can stainless steel furniture be maintained?
You should undertake regular maintenance using our care product to preserve the fine appearance of your furniture. Cleaning once or twice a year will be adequate in most circumstances but we recommend a more frequent cleaning regime to in harsh environments, including a salt or chlorine concentration found in coastal areas or around a swimming pool. Stainless steel furniture used in a chlorinated indoor environment will require frequent cleaning and we therefore recommend that you use our powder coated products.

We recommend that you regularly rinse your furniture with fresh water to remove condensed chlorinated moisture. Conventional abrasive cleaners or strong acidic cleaners should never be used on stainless steel as this can damage the finish. We recommend using Barlow Tyrie Stainless Steel Clean & Guard to care for and maintain your stainless steel furniture.

If you have any questions or concerns about how the 316-grade stainless stell is affected or best suited for your area or pool environment, please contact our Customer Services.

- Stainless Steel Clean and Guard (4SSCG) - All stainless steel is susceptible to brown surface marks, which are cosmetic and do not damage

the product. Remove these marks by regular cleaning with this care product, which leaves a fine layer of Teflon® to help prevent their appearance. Supplied with its own special applicator pad.

ALUMINIUM

What are the properties of aluminium?
Aluminium is a strong yet light material that does not corrode or rust, which makes it ideal for outdoor furniture that is easy to move. The aluminium we use is ‘virgin aluminium’, meaning it is not reclaimed from scrap and is more robust and longer-lasting. We pre-wash, etch prime and electrostatically powder-coat our aluminium furniture for optimum even cover before oven baking to fix the finish. This process prevents oxidation and gives attractive, hard-wearing surface and the possibility of various colour themes.

How can aluminium furniture be maintained?
We recommend the following Barlow Tyrie product to care for and maintain your aluminium furniture.

- Powder Coated Stainless Steel & Aluminium Cleaner (4AC) – easily removes dirt, grease, oil, pollutants, and mould.

FITTINGS & ACCESSORIES

Will the metal fittings on my furniture last as long as the teak?
We only use the best marine quality solid brass and stainless steel on our furniture. With due care and attention, these should last as long as the teak.

Do I need to use a base to locate a parasol through a dining table?
Yes, all parasols must be located in the recommended parasol base for safety. We supply our standard parasol base

for using a parasol through a dining table, or a free-standing base is available for use without a table. Parasol plates are available for use with the Equinox and Bermuda pedestal tables.

Can we use any of your dining chairs with any of your standard-height tables?
Most of our dining chairs fit comfortably under most of our standard-height dining tables. However, there are exceptions, so if you wish to ‘mix and match’, please check the item specifications on our website or discuss your requirements with your stockist.

PLANNER TOOL

What help can you offer with planning my furniture layout?
Our Barlow Tyrie online planner tool has been designed to be intuitive and help users quickly choose and design their furniture layouts from our collections. Users can define the shape and dimensions of their outside area and then experiment with the selection and arrangement of furniture, choosing from available colour and fabric options. Designs can be viewed as two-dimensional plans or three-dimensional renderings with the ability to use a photograph of the user’s space as the background. <https://www.teak.com/furniture/planner>

LONGEVITY

How long will Barlow Tyrie furniture last?
Barlow Tyrie’s outdoor furniture has exceptional longevity by using the highest quality materials, expert craftsmanship, and carefully considered design. Combined with the technical knowledge and capability of our outstanding Customer Service support, which extends long beyond warranty periods, our products are designed to last. As such, we get feedback from customers that when they eventually need to replace or wish to buy new furniture items, they will return to Barlow Tyrie based on their excellent product and customer experience.

WARRANTY

What is the warranty period for a product?
Materials and products have varying warranty periods and guarantee for residential use that excludes damage due to misuse. For further details, please see www.teak.com.

ORDERING

Please add the correct suffix to the product code when ordering. The suffix denotes Frame colour + Sling colour + ceramic tabletop colour, etc. We can process your order without delay by correctly adding the coded suffix.

e.g. Product reference code for an Aura Armchair = 1AUA.01.500

Product code [1AUA] + Graphite frame [.01] + Charcoal sling [.500]

DELIVERY

What needs to be considered before arranging delivery?

Please note some large items are very heavy. Our delivery service delivers the product to tailgate only; you will be responsible for arranging personnel to carry and position the furniture. If delivery is to a private address, you must assess access width, height, and manoeuvre room for a commercial furniture lorry. Advise the stockist if it is unsuitable before delivery. We will, of course, try to accommodate the wishes of our customers.

Warranty Periods (years)

Product	Teak	Steel	Aluminium	Sling	Other
Teak	10				
Rustic Teak	5				
Teak & Sling	10			3	
Teak & Cord	10				3
Eucalyptus					3
Stainless Steel & Teak	10	10			
Stainless Steel & Sling		10		3	
Aluminium & Teak	10		10		
Aluminium & Sling			10	3	
Ceramic Surfaces					10
Glass					2
Parasols & Bases					2
Cushions					2
Product Covers					2

Product warranties do not apply to the following:

1. Use in a contract or non-residential situation.
2. Damage or chipping to glass, ceramic or HPL due to misuse or impact.
3. Damage due to use of a pressure washer.
4. Deterioration due to the application of teak oil or other wood treatments.
5. Damage that is wear and tear from reasonable private residential use, which includes dents, paint scratches, stains, tears to fabric, etc.
6. Normal deterioration and weathering from exposure to an outdoor environment, which includes small cracks (checking) in wood, colour change, surface blemishes on stainless steel, etc.

All furniture requires some maintenance and we recommend that you clean it regularly using our care products to keep it looking its best.

If you have a problem and the warranty period has expired then you may contact us as we will always do what we can to help you.

A warranty claim must be supported by a photograph.

Open for cushion colours

Cushion colours

Our cushions are manufactured using Sunbrella®, a colour-fast fabric that is made from a durable, all-weather, 100% solution-dyed, Teflon®-coated acrylic fibre. This fabric repels water, but cushions should not be left out in heavy rain for prolonged periods.

Rain® fabric has an additional barrier that makes the fabric waterproof and the surface of the cushion quick drying. Although the fabric is waterproof, zips and venting will allow ambient moisture from the atmosphere to enter the cushion. All cushions should be dry before being stored. There is an additional charge for cushions in Sunbrella® Rain® fabric.

Whilst great care has been taken to reproduce fabric and material colours as accurately as possible, it should be noted that due to the limitations of the litho-printing process, we cannot guarantee that the reproduction accurately represents true fabric textures and colours. Please take this into consideration as colours illustrated should only be used as a guide. Some images may contain discontinued fabric colours and furniture ranges.
