

The art of deception

For over twenty five years our skilled designers and craftsmen have produced decorative fibreglass plant containers that even the keenest eye cannot distinguish from the original materials.

Why fibreglass and resin?

A wonderfully tough and versatile material, fibreglass is maintenance free and light in weight. Completely frost proof and non-corrosive, it is superior to terracotta, stone and even some metals and is ideal for use inside and out.

Authentic finishes

Weathered bronze, terracotta, lead, aluminium, stone and even rust. Our finishes are so authentic, and long lasting, that we have had planters in some of the world's most prestigious homes, gardens, hotels and public buildings for well over a quarter of a century.

The real thing

We can also make planters in real lead, using traditional sand cast methods to produce products of extra style and quality. More recently, we have begun to use wood and metal... so that now we can make planters out of any material (except terracotta or stone).

Working to a brief

From your plans or drawings we can reproduce any design in any size or quantity, from one to one thousand and more. Alternatively, we can aid you at the design stage, so you can achieve the results you desire. These bespoke projects now represent a quarter of our work (see page 51 for more).

the range of finishes
available on all items

As an ongoing process we are creating new and ‘special’ finishes to order.

Colours may vary due to the nature of our hand finishing and the photographic process.

Aluminium smooth... an authentic aluminium finish with the practicality of fibreglass

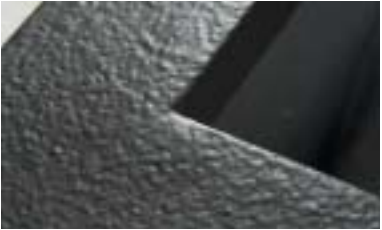

Aluminium hammered... the same colour as Aluminium Smooth but with a light texture to the surface

Faux lead... retaining the character of antique lead

Faux lead... shown here on a more modern design

Faux lead textured... mostly applied to Geometric planters to give a graphite colour finish

Old penny bronze smooth... the tarnished look of smooth bronze

Old penny bronze textured... the tarnished look of textured bronze

Weathered terracotta... has the appearance and warmth of weathered terracotta yet is light and frost-proof

Stone... Bath stone is our usual choice of finish but others may be specified

Rust aged iron... the illusion of rust

Bronzage... a soft verdigris, old weathered bronze appearance

Weathered copper... the appearance of old weather-beaten copper

Gloss white

Gloss black

British racing green

Chinese red

Range of pastels

Choose from 80 different RAL colours
RAL/British Standard colours are available in smooth or textured finishes

real lead

Lead... on occasion, nothing less than real lead casting will do

special hand finishes

Old gold

Old gold with verdigris

Silver leaf

Faux leather
A synthetic leather covering, waterproof and very versatile

Real leather
Smooth or patterned leather for that truly authentic feel and smell

Cubic, tapered, triangular, spherical, great and small... our geometric designs suit the clean lines of contemporary architecture and planting. The aluminium or faux lead metallic finishes reflect this modern style perfectly. With the surface smooth or textured, other metallic or any standard colour can be supplied.

Full dimensional details of 54 geometric shapes and sizes are shown on pages 12-15.

LONG TOM

S dia 22cm ht 65cm **code: LONGTOM 3**
M dia 30cm ht 85cm **code: LONGTOM 2**
L dia 35cm ht 100cm **code: LONGTOM 1**

The classic Victorian ‘long tom’ shape.

TULIP

S dia 25cm ht 40cm **code: TULIP 3**
M dia 37cm ht 60cm **code: TULIP 2**
L dia 45cm ht 80cm **code: TULIP 1**

Based on a florist’s vase these planters are very versatile and like many of our other designs will look just as good used inside or out.

CITADEL

S dia 61cm ht 28cm **code: CITADEL 1**
M dia 85cm ht 36cm **code: CITADEL 2**
L dia 100cm ht 45cm **code: CITADEL 3**

Shown in stone, also recommended in gloss black.

BELL JAR 1

S dia 51cm ht 39cm **code: BL 5139**
M dia 61cm ht 46cm **code: BL 6146**

BELL JAR 2

L dia 81cm ht 45cm **code: BL 8145**
L dia 85cm ht 62cm **code: BL 8562**

Designed by Brighton sculptor Bill Harling, these beautiful objects have the appearance of old weather-beaten copper.

NORMAN

S dia 50cm ht 36cm **code: NORMAN 3**
M dia 61cm ht 46cm **code: NORMAN 2**
L dia 75cm ht 56cm **code: NORMAN 1**

Rust and rivets contrast well against the organic shapes of the natural garden. Time and care has been taken to accurately record the quality of rusty metal. This rust finish is available on all of our planters.

TUDOR ROSE

S dia 40cm ht 21cm code: TU 1602

M dia 40cm ht 42cm code: TU 1601

M length 62cm depth 22cm ht 23cm code: TUD 2508

This royal design (circa 1500) is from the reign of Henry VII. See page 35 for matching window box.

DAUPHIN

S width 36cm depth 20cm ht 16cm code: JD2

A small jardinière from a French original, which is most effective filled with small plants or cut flowers.

ADAM

S width 30cm depth 30cm ht 23cm code: AD 12

See page 35 for matching window boxes and page 32 for planters.

CITRUS TUB

S dia 36cm ht 18cm code: CT 14

See page 32 for matching planters and page 17 for pots.

CITRUS TROUGH

S length 30cm depth 30cm ht 18cm code: CT 12

M length 47cm depth 22cm ht 18cm code: CT 18

See page 17 and 32 for matching planters and troughs.

GARLAND

S dia 31cm ht 22cm code: GA 1409

SHIP

M dia 51cm ht 46cm code: SP 2001

The originals were cast in Portsmouth by the Royal Navy to commemorate their victory over the French at the battle of Plessy. The design depicts ships, mermaids and starfish, and is dated 1757.

DEVIL'S PUNCHBOWL

S dia 28cm ht 18cm code: JD1

This unusual punchbowl is cast from an antique original believed to be Jacobean and has its dents and fatigue marks. There are four devil's masks, complete with horns.

TONBRIDGE AND HALF TONBRIDGE

S dia 32cm ht 22cm code: T 1309

S length 34cm ht 24cm code: T HALF 1309

The Half Tonbridge can be used as a wall planter.

The Mediterranean Collection

Our search of the farms, vineyards and ports of the Mediterranean has brought together this remarkable collection of vessels for wine, olive oil and molasses, and our reproductions are as true in detail as possible. Optional metal stands are available.

MEDITERRANEAN 1

L dia 52cm ht 77cm code: MED 1

Shown here in bespoke hand finish on optional metal stand.

BEEHIVE

L dia 61cm ht 82cm code: BEE 3224

(of Greek origin)

CRETAN OIL JAR

L dia 75cm ht 100cm code: CRET 3828

MEDITERRANEAN 2

M dia 44cm ht 56cm code: MED 2

MEDITERRANEAN 3

M dia 74cm ht 54cm code: MED 3

Shown here in bespoke hand finish on optional metal stand.

MEDITERRANEAN 4

L dia 62cm ht 72cm code: MED 4

MEDITERRANEAN 5

M dia 47cm ht 52cm code: MED 5

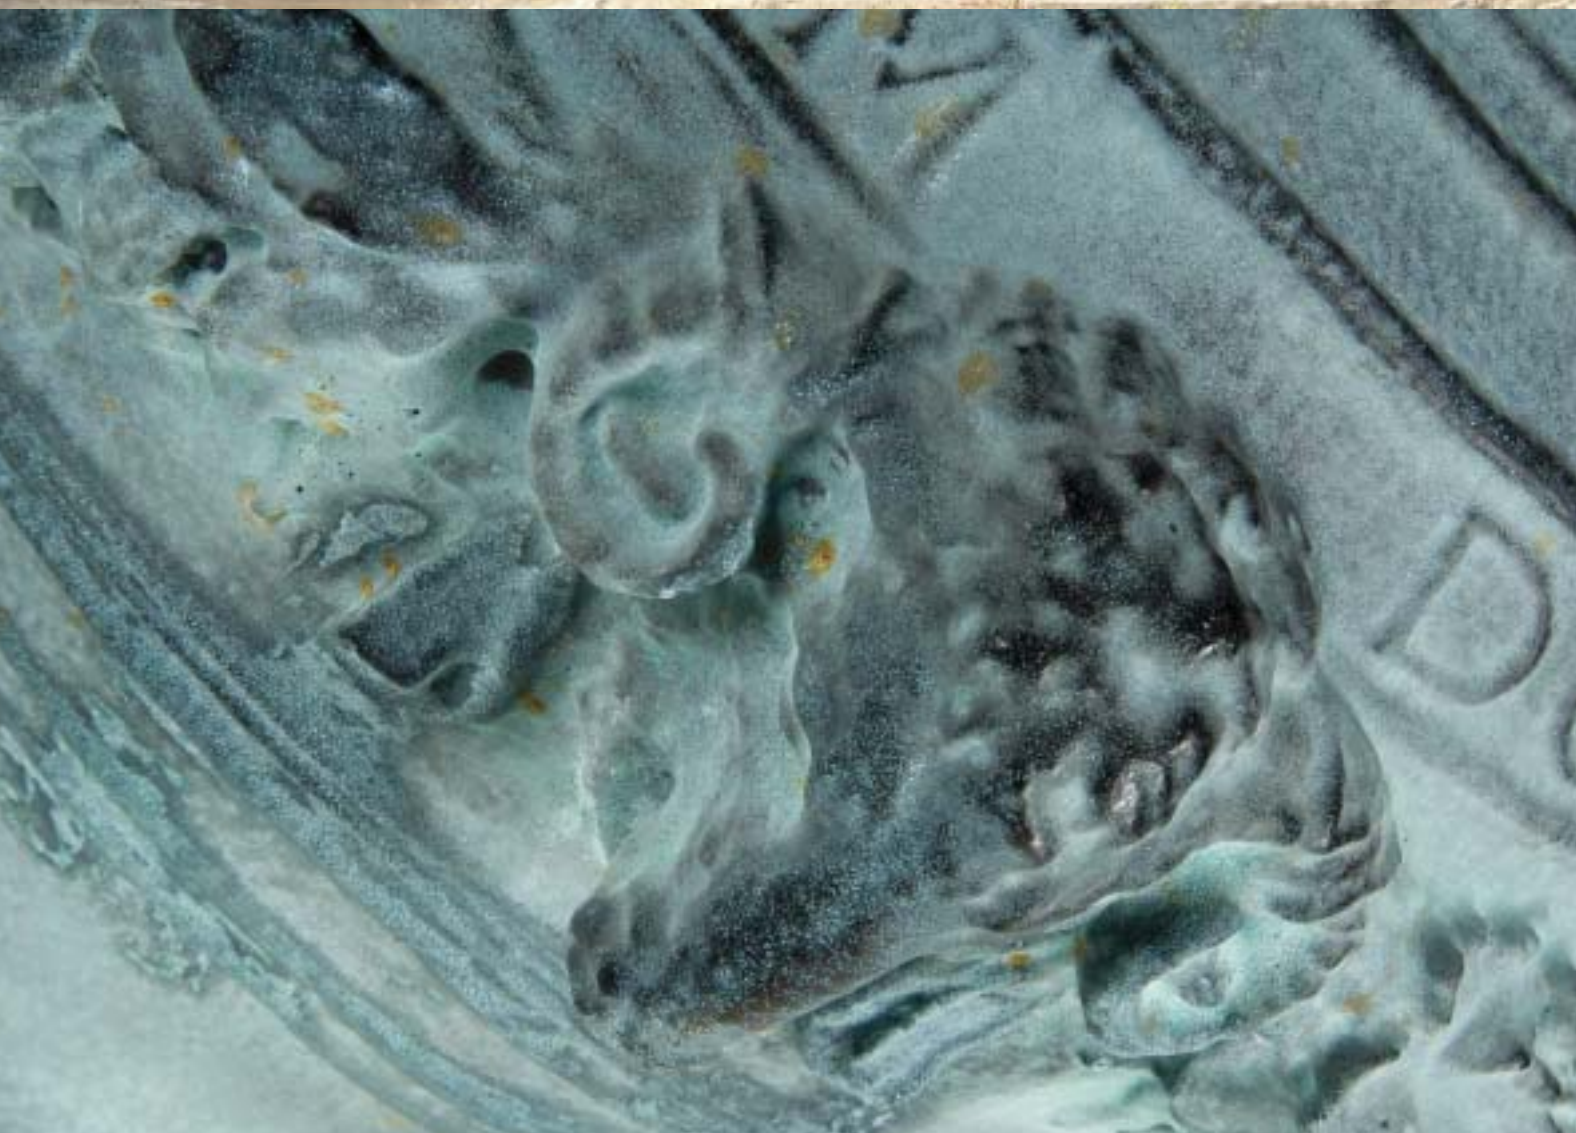

Shown here in bespoke hand finish.

ELIZABETHAN TROUGH

M length 74cm depth 38cm ht 34cm **code: ELIZ 1513 D** **L** length 100cm depth 51cm ht 41cm **code: ELIZ 2004 D**

water tanks

Romantic and practical... use these versatile tanks as rainwater reservoirs or large planters. In these days of water shortages, collecting rainwater is a must for many gardens. Fitted with a backplate and fountain they also provide the sound and movement of water. Lids are available and pumps included where appropriate.

JAMES II TANK AND FOUNTAIN

Tank: **XL** width 130cm depth 71cm ht 74cm **code: JII 4901**
Fountain: width 130cm ht 70cm **code: JIIBP 4901**

Backplate optional.

GEORGE AND DRAGON TANK AND FOUNTAIN

Tank: **XL** width 95cm depth 45cm ht 65cm **code: GD 3618**
Fountain: width 95cm ht 54cm **code: GDBP 3618**

This tank is ideal for personalisation with initials, dates or crests. Backplate optional.

NORMAN

L width 91cm depth 91cm ht 77cm **code: NORMAN 4**
See page 21 for matching pots.

GEORGE III

L width 74cm depth 73cm ht 76cm **code: GIII 2829**

JAMES II

L width 73cm depth 73cm ht 76cm **code: JII 2801**

A rainwater tank taken from a James II original dated 1692 and still in daily use in the City of London. A pair planted with large shrubs looks splendid as a dramatic entrance.

HAMPTON

L width 72cm depth 72cm ht 72cm **code: HAM 2802**
L width 91cm depth 91cm ht 91cm **code: HAM 9191**
XL width 142cm depth 72cm ht 72cm **code: HAM 2802 D**
XXL width 212cm depth 72cm ht 72cm **code: HAM 2802 T**

These can be made in any multiple to create a large planter or watertank. See page 29 for matching planters and page 35 for window boxes.

HAMPTON FOUNTAIN

L width 80cm depth 40cm ht 86cm **code: HAM 9112**

See page 29 for matching planters and page 35 for window boxes.

TAJ TANK 1 AND FOUNTAIN

Tank: L width 63cm depth 48cm ht 72cm **code: TAJ 2319**
Fountain: width 63cm ht 75cm **code: TAJBP 2319**

TAJ TANK 2

XL width 95cm depth 63cm ht 72cm **code: TAJ 2338**

The delicate relief carvings that appear on the Taj range were inspired by the decoration within the Taj Mahal. See page 41 for matching corner wall fountain.

The easiest and prettiest way to add water to your garden or conservatory. All that’s needed is an electric power point...

...no plumbing required.

wall fountains

FLOWER

M width 51cm depth 15cm ht 89cm code: F008

A very quiet water flow makes this ideal for interior use.

DOLPHIN

M width 51cm depth 24cm ht 74cm code: F001

This design depicts dolphins and garlands of flowers framed between barley twist columns.

GARGOYLE

L width 50cm depth 25cm ht 90cm code: F022

Inspired by the gargoyles on an Oxford University college.

TAJ CORNER FOUNTAIN

L width 61cm depth 48cm ht 100cm code: F018

See page 39 for matching water tank and fountain.

GREAT LION BOWL

XL width 94cm depth 52cm ht 97cm code: F010

A big bold feature that creates a focal point of interest.

GREAT DOLPHIN BOWL

XL width 94cm depth 52cm ht 97cm code: F013

DUTCH MASTER

M width 41cm depth 16cm ht 74cm code: F012

WATER BABIES

S width 41cm depth 21cm ht 71cm code: F014

RAM'S HEAD

M width 51cm depth 20cm ht 75cm code: F009

PETAL

L width 49cm depth 24cm ht 79cm code: F026

Urns create an eye-catching focal point, especially on one of our matching pedestals. On a wall, or resting on the ground in a flower border, they create additional interest whether planted or unplanted. From small table-top sizes to large urns, the designer or flower arranger will appreciate the light weight of fibreglass.

OAK LEAF

XXL dia 107cm base 61cm ht 134cm code: OAK 4353

This exceptional urn is an excellent example of our unique design and manufacturing capabilities. Shown on optional pedestal 10 (see page 49).

MEDICI

L dia 60cm base dia 29cm ht 71cm code: MEDI 3023

A smaller reproduction of the magnificent Medici Vase which is on display in the Uffizi Gallery, Florence. Shown on optional pedestal 4 (see page 49).

FRENCH TAZZA

M dia 52cm base dia 22cm ht 39cm code: TAZ 2115

Fits pedestal 8 (see page 49).

BODIAM

M dia 57cm base 28cm ht 56cm code: BOD 2222

Fits pedestal 9 and 11 (see page 49).

ROMAN 1

XXL dia 92cm base 46cm ht 122cm code: RO 3648

Shown on optional pedestal 54.

ROMAN 2

XXL dia 127cm base 46cm ht 86cm code: RO 4833

Shown on optional pedestal 54.

On optional pedestal 3 pedestal 11 pedestal 9... see page 49

FLUTED URN

S dia 30cm base 19cm ht 36cm **code: FLU 1220**
M dia 40cm base 20cm ht 46cm **code: FLU 1605**
L dia 59cm base 27cm ht 75cm **code: FLU 2330**

*This fluted urn has been admired since Greek and Roman times.
The graceful and timeless shape is excellent for cut flowers as well as planting.*

EWHURST VASE

M dia 45cm base 26cm ht 68cm **code: EV 1727**

Shown on pedestal 11 (see page 49).

SHALLOW URN

L dia 75cm base 30cm ht 53cm **code: SHA 2922**

Shown on pedestal 9 (see page 49).

GRECIAN

M dia 43cm base 22 cm ht 51cm **code: GRE 1703**

*Taken from an early Victorian original that borrowed
much from the early Greeks. Fits pedestal 6 (see page 49).*

SMALL URN

S dia 29cm base 12cm ht 20cm **code: JD 4**

Fits pedestal 6 (see page 49).

QUEEN ANNE

L top dia 42cm base dia 32cm ht 46cm **code: ANNE 1701**

This copy of an urn from 1701, has graceful griffin handles, decorative fluting and cherubs on both sides. Shown on optional pedestal 4.

code: PED 11

Realising your ideas

Our growing reputation for producing the very best tailor-made designs and solutions means that you can be confident that we will get your space looking as good as possible... on budget and on time.

Whether your project is a compact roof garden or an extensive public area, we can either interpret your ideas or follow your detailed plans precisely.

Our experienced team of designers and craftsmen can work in fibreglass or, should you require, wood, aluminium, stainless steel, mild steel or even cast in real lead at our specialist foundry.

Interiors too

Many of our projects are for interior spaces, where fibreglass is a great material as it offers huge flexibility. Its potential range of sizes, colours and finishes make it a designer's dream.

Bespoke sizes and finishes

Some of our clients customise our existing designs for their specific requirements. Scaling up a planter to a huge size (practically impossible in many traditional materials) and giving it one of our special finishes can add instant drama to your design.

Many gardens and buildings worldwide benefit from our bespoke products. They include:

County Hall London
Whitbread Brewery City of London
Savoy Hotel London
Lanesborough Hotel London
Imax Cinema London
The Lowry Hotel Manchester
Bluewater Shopping Mall
Trinity College Cambridge
Pierre Hotel New York
The Hudson Hotel New York
Barakura Gardens Japan
Royal Westmorland Golf Club Barbados
Tresco Gardens Scilly Isles...

From a single water feature to a complex planter system, no brief is too simple or too complicated. For further details please call 0800 085 0005

accessories

Water reservoirs

A proven design used commercially in the trade for many years. The tank is placed 45cm below the roots and water is released by capillary action. They are easy to fill and have an integral water level indicator. Use individually or link for larger planting. For advice please call.

False floors

A useful addition to many of our planters is our ability to add a false floor at any level so that the planting depth can be reduced. Superb for flower arranging, exhibitions and temporary displays (we use them at all our exhibitions). Specify your requirements or speak with our team of experts.

Adaptations... made to order

- Lids for troughs and water tanks (Europe only)
- Matching Geometric trash bins

Hidden wheels

Concealed within the base, they are a very useful addition to larger planters. They enable tender plants to be moved easily. They facilitate cleaning and provide an option for moveable living screens in any setting. We supply a variety of wheels (with or without brakes) and offer a bespoke solution for any situation.

- Drip trays for all planters
- Screens
- Ashtrays
- Felt feet and rubber mats available to protect floors and carpets

Call with your requirements.
